

Game Conceptualization

Exquisite Corpse

Design Inspiration

Main Idea

Free roam game in which there are different areas in an almost intractable gallery thats in the middle of a lily pond. Players can choose to follow the main route or they can jump from the main path to lily pads to get around faster. The whole gallery and lily pond is inside of the pavilion as it originally has a lily pond however in the game this intractable human size lily pond replaces it.

Original Pavilion & Lily Pond
